Preface **xix**

Before You Begin **xxxii**

I Introduction to Android **I**

1.1	Introduction	2
1.2	Android Overview	4
1.3	Android 2.2 (Froyo)	7
1.4	Android 2.3 (Gingerbread)	10
1.5	Android 3.0 (Honeycomb)	12
1.6	Android 4.0 (Ice Cream Sandwich)	15
1.7	Downloading Apps from the Android Market	17
1.8	Packages	18
1.9	Android Software Development Kit (SDK)	20
1.10	Object Technology: A Quick Refresher	22
1.11	Test-Driving the Doodlz App in an Android Virtual Device (AVD)	24
1.12	Deitel Resources	33
1.13	Android Development Resources	34
1.14	Wrap-Up	35

2 Android Market and App Business Issues **39**

2.1	Introduction	40
2.2	Building Great Android Apps	40
2.3	Android Best Practices	42
2.3.1	Compatibility	42
2.3.2	Supporting Multiple Screens	44
2.3.3	Android User Interface Guidelines	44
2.4	Registering at Android Market	48
2.5	Setting Up a Google Checkout Merchant Account	48
2.6	AndroidManifest.xml File	49
2.7	Preparing Your Apps for Publication	50
2.8	Uploading Your Apps to Android Market	55
2.9	Other Android App Marketplaces	57
2.10	Pricing Your App: Free or Fee	58
2.11	Monetizing Apps with In-App Advertising	60

viii Contents

2.12	Monetizing Apps: Using In-App Billing to Sell Virtual Goods in Your Apps	60
2.13	Launching the Market App from Within Your App	63
2.14	Managing Your Apps in Android Market	63
2.15	Marketing Your App	63
2.16	Other Popular App Platforms	68
2.17	Android Developer Documentation	69
2.18	Android Humor	70
2.19	Wrap-Up	71

3 **Welcome App** **74**

3.1	Introduction	75
3.2	Technologies Overview	75
3.3	Eclipse IDE	76
3.4	Creating a New Project	77
3.5	Building the Welcome App's GUI with the ADT's Visual Layout Editor	80
3.6	Examining the <code>main.xml</code> File	93
3.7	Running the Welcome App	95
3.8	Wrap-Up	95

4 **Tip Calculator App** **98**

4.1	Introduction	99
4.2	Test-Driving the Tip Calculator App	100
4.3	Technologies Overview	101
4.4	Building the App's GUI	101
4.4.1	<code>TableLayout</code> Introduction	101
4.4.2	Creating the Project and Adding the <code>TableLayout</code> and Components	102
4.4.3	Reviewing the Layout So Far	106
4.4.4	Customizing the Components to Complete the Design	106
4.4.5	Final XML Markup for the Tip Calculator GUI	109
4.4.6	<code>strings.xml</code>	113
4.5	Adding Functionality to the App	113
4.6	Wrap-Up	123

5 **Favorite Twitter® Searches App** **127**

5.1	Introduction	128
5.2	Test-Driving the Favorite Twitter Searches App	129
5.3	Technologies Overview	131
5.4	Building the App's GUI and Resource Files	133
5.4.1	<code>main.xml</code> <code>TableLayout</code>	133
5.4.2	Creating the Project	134
5.4.3	Creating the Resource Files	134
5.4.4	Adding the <code>TableLayout</code> and Components	136
5.4.5	Creating a <code>TableRow</code> That Displays a Search and an Edit Button	140

5.5	Building the App	141
5.6	AndroidManifest.xml	152
5.7	Wrap-Up	153
6	Flag Quiz Game App	158
6.1	Introduction	159
6.2	Test-Driving the Flag Quiz Game App	163
6.3	Technologies Overview	163
6.4	Building the App's GUI and Resource Files	165
6.4.1	main.xml LinearLayout	165
6.4.2	Creating the Project	165
6.4.3	Creating and Editing the Resource Files	166
6.4.4	Adding the Components to the LinearLayout	167
6.4.5	Creating a Button That Can Be Dynamically Inflated	170
6.4.6	Creating the Flag Shake Animation	170
6.5	Building the App	172
6.6	AndroidManifest.xml	186
6.7	Wrap-Up	187
7	Cannon Game App	191
7.1	Introduction	192
7.2	Test-Driving the Cannon Game App	193
7.3	Technologies Overview	194
7.4	Building the App's GUI and Resource Files	196
7.4.1	Creating the Project	196
7.4.2	AndroidManifest.xml	196
7.4.3	strings.xml	197
7.4.4	main.xml	197
7.4.5	Adding the Sounds to the App	198
7.5	Building the App	198
7.5.1	Line Class Maintains a Line's Endpoints	198
7.5.2	CannonGame Subclass of Activity	198
7.5.3	CannonView Subclass of View	201
7.6	Wrap-Up	218
8	SpotOn Game App	223
8.1	Introduction	224
8.2	Test-Driving the SpotOn Game App	225
8.3	Technologies Overview	226
8.4	Building the App's GUI and Resource Files	227
8.4.1	AndroidManifest.xml	227
8.4.2	main.xml RelativeLayout	227
8.4.3	untouched.xml ImageView for an Untouched Spot	228
8.4.4	life.xml ImageView for a Life	228

x Contents

8.5	Building the App	229
8.5.1	SpotOn Subclass of Activity	229
8.5.2	SpotOnView Subclass of View	231
8.6	Wrap-Up	243

9 Doodlz App 247

9.1	Introduction	248
9.2	Test-Driving the Doodlz App	249
9.3	Technologies Overview	250
9.4	Building the App's GUI and Resource Files	251
9.4.1	Creating the Project	251
9.4.2	AndroidManifest.xml	252
9.4.3	strings.xml	252
9.4.4	main.xml	253
9.4.5	color_dialog.xml	253
9.4.6	width_dialog.xml	255
9.5	Building the App	256
9.5.1	Doodlz Subclass of Activity	256
9.5.2	DoodlzView Subclass of View	269
9.6	Wrap-Up	278

10 Address Book App 282

10.1	Introduction	283
10.2	Test-Driving the Address Book App	285
10.3	Technologies Overview	286
10.4	Building the GUI and Resource Files	287
10.4.1	Creating the Project	288
10.4.2	AndroidManifest.xml	288
10.4.3	styles.xml	288
10.4.4	textview_border.xml	289
10.4.5	AddressBook Activity's Layout: contact_list_item.xml	290
10.4.6	ViewContact Activity's Layout: view_contact.xml	290
10.4.7	AddEditContact Activity's Layout: add_contact.xml	290
10.4.8	Defining the App's MenuItems with menu Resources in XML	292
10.5	Building the App	293
10.5.1	AddressBook Subclass of ListActivity	293
10.5.2	ViewContact Subclass of Activity	299
10.5.3	AddEditContact Subclass of Activity	305
10.5.4	DatabaseConnector Utility Class	308
10.6	Wrap-Up	314

11 Route Tracker App 318

11.1	Introduction	319
------	--------------	-----

11.2	Test-Driving the Route Tracker App	321
11.3	Technologies Overview	323
11.4	Building the GUI and Resource Files	325
11.4.1	Creating the Project	325
11.4.2	AndroidManifest.xml	325
11.4.3	Route Tracker Layout: main.xml	326
11.5	Building the App	327
11.5.1	RouteTracker Subclass of MapActivity	327
11.5.2	BearingFrameLayout Subclass of FrameLayout	338
11.5.3	RouteOverlay Subclass of Overlay	341
11.6	Wrap-Up	345

12 Slideshow App 349

12.1	Introduction	350
12.2	Test-Driving the Slideshow App	353
12.3	Technologies Overview	354
12.4	Building the GUI and Resource Files	357
12.4.1	Creating the Project	357
12.4.2	Using Standard Android Icons in the App's GUI	357
12.4.3	AndroidManifest.xml	357
12.4.4	Layout for ListView Items in the Slideshow ListActivity	358
12.4.5	Slideshow ListActivity's Menu	358
12.4.6	Layout for the EditText in the Set Slideshow Name Dialog	359
12.4.7	Layout for the SlideshowEditor ListActivity	359
12.4.8	Layout for ListView Items in the SlideshowEditor ListActivity	360
12.4.9	Layout for the SlideshowPlayer Activity	360
12.5	Building the App	361
12.5.1	SlideshowInfo Class	361
12.5.2	Slideshow Subclass of ListActivity	362
12.5.3	SlideshowEditor Subclass of ListActivity	373
12.5.4	SlideshowPlayer Subclass of ListActivity	381
12.6	Wrap-Up	388

13 Enhanced Slideshow App 392

13.1	Introduction	393
13.2	Test-Driving the Enhanced Slideshow App	394
13.3	Technologies Overview	395
13.4	Building the GUI and Resource Files	396
13.4.1	Creating the Project	397
13.4.2	AndroidManifest.xml	397
13.4.3	SlideshowEditor ListActivity's Modified Layout	398
13.4.4	PictureTaker Activity's Layout	398
13.4.5	SlideshowPlayer Activity's Modified Layout	398

xii Contents

13.5	Building the App	399
13.5.1	MediaItem Class	399
13.5.2	SlideshowInfo Class	400
13.5.3	Slideshow Class	402
13.5.4	SlideshowEditor Class	407
13.5.5	PictureTaker Subclass of Activity	410
13.5.6	SlideshowPlayer Class	416
13.6	Wrap-Up	421

14 Weather Viewer App 424

14.1	Introduction	425
14.2	Test-Driving the Weather Viewer App	427
14.3	Technologies Overview	428
14.4	Building the App's GUI and Resource Files	430
14.4.1	AndroidManifest.xml	430
14.4.2	WeatherViewerActivity's main.xml Layout	431
14.4.3	Default Cities and ZIP Codes in arrays.xml	432
14.4.4	WeatherViewerActivity's actionmenu.xml Menu Layout	432
14.4.5	WeatherProvider App Widget Configuration and Layout	433
14.5	Building the App	433
14.5.1	Class WeatherViewerActivity	434
14.5.2	Class CitiesFragment	449
14.5.3	Class AddCityDialogFragment	456
14.5.4	Class ForecastFragment	459
14.5.5	Class SingleForecastFragment	459
14.5.6	Class ReadLocationTask	466
14.5.7	Class ReadForecastTask	470
14.5.8	Class FiveDayForecastFragment	476
14.5.9	Class ReadFiveDayForecastTask	481
14.5.10	Class DailyForecast	486
14.5.11	Class WeatherProvider	487
14.6	Wrap-Up	493

A Introduction to Java Applications 498

A.1	Introduction	499
A.2	Your First Program in Java: Printing a Line of Text	499
A.3	Modifying Your First Java Program	503
A.4	Displaying Text with printf	505
A.5	Another Application: Adding Integers	505
A.6	Memory Concepts	509
A.7	Arithmetic	510
A.8	Decision Making: Equality and Relational Operators	513
A.9	Wrap-Up	517

B Introduction to Classes, Objects, Methods and Strings 522

B.1	Introduction	523
B.2	Declaring a Class with a Method and Instantiating an Object of a Class	523
B.3	Declaring a Method with a Parameter	526
B.4	Instance Variables, <i>set</i> Methods and <i>get</i> Methods	529
B.5	Primitive Types vs. Reference Types	533
B.6	Initializing Objects with Constructors	534
B.7	Floating-Point Numbers and Type <code>double</code>	536
B.8	Wrap-Up	540

C Control Statements 544

C.1	Introduction	545
C.2	Algorithms	545
C.3	Pseudocode	546
C.4	Control Structures	546
C.5	<code>if</code> Single-Selection Statement	547
C.6	<code>if...else</code> Double-Selection Statement	547
C.7	<code>while</code> Repetition Statement	550
C.8	Case Study: Counter-Controlled Repetition	550
C.9	Case Study: Sentinel-Controlled Repetition	554
C.10	Case Study: Nested Control Statements	559
C.11	Compound Assignment Operators	562
C.12	Increment and Decrement Operators	562
C.13	Primitive Types	564
C.14	Essentials of Counter-Controlled Repetition	565
C.15	<code>for</code> Repetition Statement	566
C.16	Examples Using the <code>for</code> Statement	568
C.17	<code>do...while</code> Repetition Statement	570
C.18	<code>switch</code> Multiple-Selection Statement	571
C.19	<code>break</code> and <code>continue</code> Statements	578
C.20	Logical Operators	578
C.21	Wrap-Up	581

D Methods: A Deeper Look 589

D.1	Introduction	590
D.2	Program Modules in Java	590
D.3	<code>static</code> Methods, <code>static</code> Fields and Class <code>Math</code>	591
D.4	Declaring Methods with Multiple Parameters	593
D.5	Notes on Declaring and Using Methods	596
D.6	Method-Call Stack and Activation Records	597
D.7	Argument Promotion and Casting	597
D.8	Java API Packages	598

xiv Contents

D.9	Introduction to Random-Number Generation	599
	D.9.1 Scaling and Shifting of Random Numbers	600
	D.9.2 Random-Number Repeatability for Testing and Debugging	601
D.10	Case Study: A Game of Chance; Introducing Enumerations	602
D.11	Scope of Declarations	606
D.12	Method Overloading	608
D.13	Wrap-Up	611

E Arrays and ArrayLists 618

E.1	Introduction	619
E.2	Arrays	619
E.3	Declaring and Creating Arrays	620
E.4	Examples Using Arrays	621
E.5	Case Study: Card Shuffling and Dealing Simulation	630
E.6	Enhanced for Statement	634
E.7	Passing Arrays to Methods	635
E.8	Case Study: Class <code>GradeBook</code> Using an Array to Store Grades	639
E.9	Multidimensional Arrays	644
E.10	Case Study: Class <code>GradeBook</code> Using a Two-Dimensional Array	648
E.11	Class Arrays	654
E.12	Introduction to Collections and Class <code>ArrayList</code>	656
E.13	Wrap-Up	659

F Classes and Objects: A Deeper Look 664

F.1	Introduction	665
F.2	Time Class Case Study	665
F.3	Controlling Access to Members	669
F.4	Referring to the Current Object's Members with the <code>this</code> Reference	670
F.5	Time Class Case Study: Overloaded Constructors	672
F.6	Default and No-Argument Constructors	678
F.7	Composition	679
F.8	Enumerations	682
F.9	Garbage Collection	684
F.10	<code>static</code> Class Members	685
F.11	<code>final</code> Instance Variables	689
F.12	Packages	689
F.13	Package Access	690
F.14	Wrap-Up	690

G Object-Oriented Programming: Inheritance and Polymorphism 693

G.1	Introduction to Inheritance	694
G.2	Superclasses and Subclasses	695

G.3	protected Members	696
G.4	Relationship between Superclasses and Subclasses	697
G.4.1	Creating and Using a <code>CommissionEmployee</code> Class	697
G.4.2	Creating and Using a <code>BasePlusCommissionEmployee</code> Class	702
G.4.3	Creating a <code>CommissionEmployee–BasePlusCommissionEmployee</code> Inheritance Hierarchy	707
G.4.4	<code>CommissionEmployee–BasePlusCommissionEmployee</code> Inheritance Hierarchy Using <code>protected</code> Instance Variables	710
G.4.5	<code>CommissionEmployee–BasePlusCommissionEmployee</code> Inheritance Hierarchy Using <code>private</code> Instance Variables	713
G.5	Class Object	718
G.6	Introduction to Polymorphism	719
G.7	Polymorphism: An Example	720
G.8	Demonstrating Polymorphic Behavior	721
G.9	Abstract Classes and Methods	724
G.10	Case Study: Payroll System Using Polymorphism	725
G.10.1	Abstract Superclass <code>Employee</code>	726
G.10.2	Concrete Subclass <code>SalariedEmployee</code>	729
G.10.3	Concrete Subclass <code>HourlyEmployee</code>	731
G.10.4	Concrete Subclass <code>CommissionEmployee</code>	732
G.10.5	Indirect Concrete Subclass <code>BasePlusCommissionEmployee</code>	734
G.10.6	Polymorphic Processing, Operator <code>instanceof</code> and Downcasting	735
G.10.7	Summary of the Allowed Assignments Between Superclass and Subclass Variables	740
G.11	<code>final</code> Methods and Classes	741
G.12	Case Study: Creating and Using Interfaces	742
G.12.1	Developing a <code>Payable</code> Hierarchy	743
G.12.2	Interface <code>Payable</code>	744
G.12.3	Class <code>Invoice</code>	745
G.12.4	Modifying Class <code>Employee</code> to Implement Interface <code>Payable</code>	747
G.12.5	Modifying Class <code>SalariedEmployee</code> for Use in the <code>Payable</code> Hierarchy	749
G.12.6	Using Interface <code>Payable</code> to Process Invoices and Employees Polymorphically	751
G.13	Common Interfaces of the Java API	752
G.14	Wrap-Up	753

H Exception Handling: A Deeper Look 757

H.1	Introduction	758
H.2	Example: Divide by Zero without Exception Handling	758
H.3	Example: Handling <code>ArithmeticExceptions</code> and <code>InputMismatchExceptions</code>	760
H.4	When to Use Exception Handling	765
H.5	Java Exception Hierarchy	765
H.6	<code>finally</code> Block	768

xvi Contents

H.7	Stack Unwinding and Obtaining Information from an Exception Object	772
H.8	Wrap-Up	775

I GUI Components and Event Handling 778

I.1	Introduction	779
I.2	Nimbus Look-and-Feel	779
I.3	Text Fields and an Introduction to Event Handling with Nested Classes	780
I.4	Common GUI Event Types and Listener Interfaces	786
I.5	How Event Handling Works	787
I.6	JButton	789
I.7	JComboBox; Using an Anonymous Inner Class for Event Handling	793
I.8	Adapter Classes	796
I.9	Wrap-Up	797

J Other Topics 798

J.1	Introduction	799
J.2	Collections Overview	799
J.3	Type-Wrapper Classes for Primitive Types	800
J.4	Interface Collection and Class Collections	800
J.5	Lists	801
	J.5.1 ArrayList and Iterator	801
	J.5.2 LinkedList	803
	J.5.3 Views into Collections and Arrays Method asList	806
J.6	Collections Methods	808
	J.6.1 Method sort	808
	J.6.2 Method shuffle	810
J.7	Interface Queue	811
J.8	Sets	811
J.9	Maps	812
J.10	Introduction to Files and Streams	815
J.11	Class File	816
J.12	Introduction to Object Serialization	817
J.13	Introduction to Multithreading	818
J.14	Creating and Executing Threads with the Executor Framework	819
J.15	Overview of Thread Synchronization	823
J.16	Concurrent Collections Overview	824
J.17	Multithreading with GUI	824
J.18	Wrap-Up	831

K Operator Precedence Chart 834

L Primitive Types 836

Index 837

Chapters on the Web

The following chapters are located on the book's Companion Website at www.pearsonhighered.com/deitel

15 Pizza App

Text-to-Speech, Speech-to-Text and Telephony

16 Voice Recorder App

Audio Recording and Playback

17 Enhanced Address Book App

Bluetooth

18 3D Art App

OpenGL ES 3D Rendering
