Preface	xxvii
Before You Begin	xxxvii
I Introduction to iPhone App Development	I
1.1 Introduction to <i>iPhone for Programmers</i>	2
1.2 iPhone Overview	3
1.3 Key New iPhone 3GS and OS 3.x Features and Enhancements	6
1.4 Downloading Apps from the App Store	7
1.5 iPhone OS 3.x	8
1.6 Objective-C Programming Language	9
1.7 Design Patterns	10
1.8 Cocoa Frameworks	11
1.9 New iPhone SDK 3 Features	13
1.10 Xcode Toolset	14
1.11 Basics of Object Technology	15
1.12 Web 2.0	17
1.13 Test-Driving the Painter App in the iPhone Simulator	17
1.14 Wrap-Up	22
1.15 Deitel Resource Centers	22
2 iPhone App Store and App Business Issues	27
2.1 Introduction	28
2.2 iPhone Developer Program: Setting up Your Profile for Testing and Submitting Apps	29
2.2.1 Setting Up Your iPhone Development Team	29
2.2.2 Getting an iPhone Development Certificate	30
2.2.3 Registering Devices for Testing	31
2.2.4 Creating App IDs	32
2.2.5 Creating a Provisioning Profile	32
2.2.6 Using the Provisioning Profile to Install an App on an iPhone or iPod Touch	32
2.2.7 Submitting Your App for Distribution	33
2.3 iPhone Human Interface Guidelines	34
2.4 Testing Your App	36

x Contents

2.5	Preparing Your App for Submission through iTunes Connect	37
2.6	Characteristics of Great iPhone Apps	39
2.7	Avoiding Rejection of Your App	41
2.8	Pricing Your App: Free or Fee	41
2.9	Adding an App to iTunes Connect	43
2.10	Monetizing Paid Apps: Using In App Purchase to Sell Virtual Goods	46
2.11	Using iTunes Connect to Manage Your Apps	48
2.12	Marketing your App	48
2.13	iPhone Anecdotes and Humor	53
2.14	Other Platforms	54
2.15	iPhone Developer Documentation	55
2.16	Wrap-Up	55

3 Welcome App 63

Introducing Xcode, Cocoa and Interface Builder

3.1	Introduction	64
3.2	Overview of the Technologies	64
3.3	Xcode 3 IDE and Cocoa	65
3.4	Building the Application	68
3.5	Building the GUI with Interface Builder	69
3.6	Running the Welcome App	73
3.7	Wrap-Up	75

4 Tip Calculator App 81

Introducing Objective-C Programming

4.1	Introduction	82
4.2	Test-Driving the Tip Calculator App	83
4.3	Overview of the Technologies	83
4.4	Building the App	83
4.5	Adding Functionality to Your App	88
4.6	Connecting Objects in Interface Builder	90
4.7	Implementing the Class's Methods	93
4.8	Wrap-Up	98

5 Favorite Twitter® Searches App 105

Collections and Cocoa GUI Programming

5.1	Introduction	106
5.2	Test-Driving the Favorite Twitter Searches App	107
5.3	Technologies Overview	108
5.4	Building the App	108
5.5	Wrap-Up	123
5.6	Suggested Modifications to the App	126

6	Flag Quiz Game App	129
	<i>Controllers and the Utility Application Template</i>	
6.1	Introduction	130
6.2	Test-Driving the Flag Quiz Game App	133
6.3	Technologies Overview	133
6.4	Building the App	134
	6.4.1 The MainView and Class <code>MainViewController</code>	134
	6.4.2 The FlipsideView and Class <code>FlipsideViewController</code>	149
6.5	Wrap-Up	154
7	Spot-On Game App	161
	<i>Using UIView and Detecting Touches</i>	
7.1	Introduction	162
7.2	Test-Driving the Spot On Game App	164
7.3	Overview of the Technologies	164
7.4	Building the App	164
7.5	Wrap-Up	179
8	Cannon Game App	186
	<i>Animation with NSTimer and Handling Drag Events</i>	
8.1	Introduction	187
8.2	Test-Driving the Cannon Game app	188
8.3	Overview of the Technologies	188
8.4	Building the App	189
8.5	Wrap-Up	205
9	Painter App	211
	<i>Using Controls with a UIView</i>	
9.1	Introduction	212
9.2	Overview of the Technologies	212
9.3	Building the App	213
9.4	Wrap-Up	229
10	Address Book App	235
	<i>Tables and UINavigationController</i>	
10.1	Introduction	236
10.2	Test-Driving the Address Book App	238
10.3	Technologies Overview	238
10.4	Building the App	239

10.4.1	Class RootViewController	239
10.4.2	Class AddViewController	246
10.4.3	Class ContactViewController	255
10.4.4	Class EditableCell	258
10.5	Wrap-Up	262

11 Route Tracker App 267

Map Kit and Core Location (GPS and Compass)

11.1	Introduction	268
11.2	Test-Driving the Route Tracker App	272
11.3	Technologies Overview	272
11.4	Building the App	273
11.4.1	Class TrackingMapView	273
11.4.2	Class Controller	280
11.5	Wrap-Up	288

12 Slideshow App 293

Photos and iPod Library Access

12.1	Introduction	294
12.2	Test-Driving the Slideshow App	297
12.3	Technologies Overview	298
12.4	Building the App	298
12.4.1	Class RootViewController	299
12.4.2	Class SlideshowViewController	309
12.4.3	Class NameViewController	318
12.4.4	Class SlideshowDataViewController	319
12.5	Wrap-Up	330

13 Enhanced Slideshow App 336

Saving Data and Playing Video

13.1	Introduction	337
13.2	Test-Driving the Enhanced Slideshow App	339
13.3	Overview of the Technologies	340
13.4	Building the App	340
13.4.1	Class MediaItem	340
13.4.2	Class Slideshow	344
13.4.3	Class RootViewController	349
13.4.4	Class SlideshowDataViewController	352
13.4.5	Class EnhancedSlideshowAppDelegate	360
13.4.6	Class SlideshowViewController	361
13.5	Suggested Enhancements	367
13.6	Wrap-Up	367

14	Voice Recorder App	372
	<i>Audio Recording and Playback</i>	
14.1	Introduction	373
14.2	Test-Driving the Voice Recorder App	376
14.3	Overview of the Technologies	376
14.4	Building the App	377
	14.4.1 Class <code>VoiceRecorderViewController</code>	377
	14.4.2 Class <code>NameRecordingViewController</code>	385
	14.4.3 Class <code>Visualizer</code>	387
	14.4.4 Class <code>PlaybackViewController</code>	390
14.5	Speech Synthesis and Recognition	403
14.6	Wrap-Up	403
15	Enhanced Address Book App	409
	<i>Managing and Transferring Persistent Data</i>	
15.1	Introduction	410
15.2	Test-Driving the Enhanced Address Book App	412
15.3	Technologies Overview	412
15.4	Building the App	413
	15.4.1 Building the Core Data Model	413
	15.4.2 Class <code>ContactViewController</code>	413
	15.4.3 Class <code>RootViewController</code>	418
15.5	Wrap-Up	430
16	Twitter[®] Discount Airfares App	435
	<i>Internet Enabled Applications</i>	
16.1	Introduction	436
16.2	Test-Driving the Twitter Discount Airfares App	437
16.3	Technologies Overview	437
16.4	Building the App	437
16.5	Wrap-Up	457
