

INTERNET & WORLD WIDE WEB HOW TO PROGRAM, 4/e

DEITEL & DEITEL

The complete, authoritative DEITEL® LIVE-CODE introduction to Internet & web programming with Web 2.0, Ajax and Rich Internet Applications

- "This book is easily the most comprehensive resource of its kind I've seen yet."*—Jesse James Garrett, Adaptive Path
- "A one-stop shop for learning the essentials of web programming."*—Anand Narayanaswamy, ASPAlliance.com
- "Excellent for learning to develop standards-compliant web applications...takes you from the browser to the server and the database, covering web development across many programming languages."*—Paul Vencill, MITRE, Inc.
- "A good job of explaining both Internet Explorer 7 and Firefox 2."*—John Hrvatin, Microsoft
- "Cements the browser as a first-class development platform."*—Johnvey Hwang, Splunk, Inc.
- "Congratulations for this excellent work. The [Dive Into Web 2.0] chapter is simply astonishing! It's one of the better—if not the best—references on Web 2.0."*—José Antonio González Seco, Parlamento de Andalucía
- "The CSS chapter is compact, concise and full of useful info!"*—Billy B. L. Lim, Illinois State University
- "One of the best introductions to JavaScript."*—Raymond Wisman, Indiana University Southeast
- "A good introduction to the DOM; doesn't trip over cross-browser incompatibilities."*—Eric Lawrence, Microsoft
- "Exceptionally clear Ajax tutorial; best I've reviewed! Great solutions for the very cool type-ahead and edit-in-place Ajax features. 'Libraries to Help Eliminate Cross-Browser Compatibility Issues' is fantastic. This book and your websites will be often-visited resources (if not best practices in themselves)."*—John Peterson, Insync and V.I.O.
- "Great chapter [on building Flash games]. Great Dreamweaver overview."*—Jennifer Powers, University of Albany
- "A solid introduction to Adobe Flex with some very cool applications."*—Matt Chotin, Adobe
- "Describes the key concepts of relational database systems, and never loses itself in theoretical reflection. Gets the novice started, including essential SQL constructs."*—Roland Bouman, MySQL AB
- "A solid introduction to the capabilities and flexibilities of PHP. Inspired me to tighten up my own code! Easy to follow JSF development with database, Virtual Forms and Google Maps."*—John Peterson, Insync and V.I.O. Inc.
- "Excellent coverage of the most important features and techniques of developing ASP.NET 2.0 applications, with plenty of sample code."*—Peter Bromberg, VOIP, Inc.
- "I wish I had this when I was learning to program."*—Joe Kromer, New Perspective & Pittsburgh Flash Users Group
- "The web services chapter concludes a comprehensive education on Web 2.0. The examples go a long way to support the Web 2.0 mission of this book."*—George Semeczko, Independent Consultant

Internet & World Wide Web How to Program, 4/e, covers dynamic web applications development with markup languages (XHTML®, XML®), scripting languages (JavaScript™, ActionScript™, PHP, Ruby/Ruby on Rails™), Ajax, web services, web servers (IIS, Apache™), relational databases (MySQL®, SQL Server™ Express, Java™ DB), ASP.NET 2.0 and JavaServer™ Faces. Build **Ajax-enabled Rich Internet Applications**, including Cover Viewer (JavaScript/DOM®), Address Book (Ajax), Cannon Game (Flash®), Weather/Yahoo!® Maps Mashup (Flex™), Movie Player (Silverlight™), Mailing List (PHP/MySQL), Message Forum and Flickr™ Photo Viewer (Ruby on Rails), GuestBook and Secure Books Database (ASP.NET), Address Book with Google™ Maps (JSF) and Blackjack (web services).

Paul J. Deitel and **Dr. Harvey M. Deitel** are the founders of **Deitel & Associates, Inc.**, the internationally recognized corporate training, content creation and web development organization specializing in Java™, C++, C, Visual C#®, Visual Basic®, Visual C++®, XML, Internet, Web 2.0™ and object technologies. The Deitels are the authors of many other best-selling textbooks including **Java How to Program, 7/e**; **C++ How to Program, 6/e** and **C How to Program, 5/e**.

The book's user resources include the websites www.deitel.com and www.prenhall.com/deitel with the book's code examples and information for faculty, students and professionals. Contact the authors at deitel@deitel.com.
